**200 PLAYFORD DANCE TUNES with chord symbols** Although our first volume of Playford arrangements has been very popular, we are conscious that many would prefer to make their own arrangements, or just play the tunes on a single instrument with guitar or lute etc. So here are the 200 most useful tunes with chord symbols. The volume comes with a CD-Rom containing transposed versions of each tune, so you should be covered for any eventuality. LPM 111 £7,50
